Commissions

Investment products

We can only receive commissions from investment products if we have an existing agreement with the product provider prior to 1st of July 2013.

1. The issuers of the investment products I recommend may pay an initial commission. This commission which can vary depending on the product and manager is generally in a range of between 1% and 5% and calculated on your investment amount.

For example, if you invested \$10,000 and we charged you 1% initial commission we would receive \$100.

In addition

2. The issuers of the investment products I recommend may pay an ongoing commission. This commission which can vary depending on the product and manager is generally in a range of between 0% and 1% of the balance in your account per annum. This commission is paid each quarter.

For example, if your account balance was \$11,000 and we charged 1% ongoing commission we would receive \$110 per annum.

Insurance Products

Commissions can be received for life insurance products with the exception of life insurance implemented after 1 July 2014 for a member in a default superannuation or a group life policy in a superannuation fund.

1. The issuers of certain insurance products I recommend may pay an initial commission. This commission which can vary depending on the product and insurer. The maximum initial commission that will be accepted is 77% (inclusive of GST) of the initial annual premium you pay in the first year.

For example if your premium is \$500 and the insurer pays us 50% we will receive \$250.

In addition

2. The issuers of the insurance products I recommend may pay an ongoing commission when you renew your policy. The maximum renewal commission that will be accepted is 22% (inclusive of GST).
